WHAT WILL WE LEARN

JSON Overview

Here we will go through the overview of the JSON & understand the JSON object's file extension, what is the media type, Origin of JSON, Usage of JSON, Why it is good etc.

Writing JSON object using VS Code Editor

Here we will setup the VS code editor & install the JSON beautifier plugin so that our JSON Object gets formatted automatically & also cretae a first JSON object while explaining everything one by one.

Using JSON with JavaScript

Here we will be Creating a JSON object & using it in JavaScript as a variable & update the page as per JSON Object.

WHAT WILL WE LEARN

JSON Data Types

Here we will go through the JSON Data types. We will understand what are the possible data types we can put in the JSON object & also learn how to create complex JSON object if required using primitive data types.

JSON Schema

Here we will quickly understand what is JSON Schema & how it can be used along with JSON object to give more meaning & clarity to our JSON object.

JSON's Comparison with XML

Here we will be quickly going through the comparison between JSON & XML.
